THE SLO COUNTY Y
The SLO County Y was founded in 1956 by a local group of volunteers who saw a need for enriching childcare and healthy living programs. The Y has since grown into the largest provider of childcare and youth sports in the county.

FINANCIAL ASSISTANCE
The Y offers financial assistance to local families and adults in need. This financial assistance offers a reduced rate for enriching programs such as childcare, youth sports, and fitness memberships.

</table>

The Y provided $220,000 of financial assistance and program support in 2019.

San Luis Obispo County YMCA 2020 Annual Support Campaign
Y programs work to enrich people's lives across the county by providing afterschool programs, summer and day camps, youth sports, and fitness memberships. Many local families and adults are in need of these programs and services. We appreciate your support in reaching our $200,000 campaign goal to support the following programs.

MY Y STORY
“'I was looking for a program to put my son in while school is out, that I could afford. I’m a single mom and trying to find something that I can actually afford was extremely stressful. The Y has a [financial] assistance program that I qualified for so I got a reduced rate for the summer camp. When I asked about financial aid, the staff said absolutely and it was really easy to apply. I wouldn’t have been able to do that without the financial assistance.

The schedule and hours were really helpful. Then I saw the calendar and all of the activities and field trips they had planned. It was perfect. I was jealous, I had to go to work and he gets to go swimming twice a week. He ended up loving it and having a lot of fun.”
