

September 10, 2018

Dear Valued Y Member:

Our remodel is moving along and is scheduled for completion this fall. I appreciate the continued patience and flexibility that our members and staff have demonstrated during the construction.

As we are all adjusting to the new space, we are evaluating the needs of the facility. Clocks have been mounted around the facility and we will be putting a door on the Spin Studio.

In the upcoming weeks, the lobby will be tiled, landscaping will be installed, the drinking fountain will be replaced downstairs, and the building exterior will be painted.

The saunas will be operational once the remodel is complete, and mirrors for the Fitness Center are in the long term plans for the facility.

Please be aware of the following impacts to members:

- Beginning **Tuesday, September 11th**, a few parking spaces may be blocked while the front is landscaped.
- A small film crew will be recording video footage of the facility and our members on **Thursday, September 13th** beginning at 3:00 PM. *Members are welcome to join us on this afternoon to take part in the filming!* Be advised that all individuals who enter the building may be filmed.
- The chair lift is currently out of operation, and will be repaired as soon as possible.
- On **Friday, September 14th**, and **Monday, September 17th**, Southwood Drive will receive a slurry seal overlay. This work is being done by the City of SLO and is unrelated to our own facility upgrades. Southwood Drive will **not** be closed to traffic, but expect delays. Details about this project can be found at the Member Services Desk.

This information will also be on our website at sloymca.org and posted in the facility.

Thank you for your Y membership!

Sincerely,

A handwritten signature in cursive script that reads 'Monica'.

Monica Grant, CEO
